- (二) 外館應於公告之簡章中告知邦交國青年若未能依據既定安排行程並經輔導未改善、未能遵守相關規定，或違法台灣相關法令者，得予以終止本計畫提早返國，並追回相關補助款。

2025 Taiwan Global Pathfinders Initiative
Diplomatic Allies Inbound Track
Proposal-based Application Guidelines

Ministry of Foreign Affairs

ROC (Taiwan)

March 10, 2025

A. Background: On January 24, 2025, President Lai Ching-te announced the launch of the Taiwan Global Pathfinders Initiative. He stressed that a number of slots in the program would be reserved for young people from Taiwan's diplomatic allies. This would allow them to realize their dreams in Taiwan, whether by drafting their own proposals or participating in government programs. And upon returning to their home countries, they could contribute to social progress.

 **B. Program overview:** To promote international youth exchanges, deepen ties with friendly nations, and achieve the vision of having prosperous allies, the program encourages young people from Taiwan's diplomatic allies to be innovative, draft proposals, and submit action plans to fulfill their dreams in Taiwan. Participants who pass a review and are approved by Taiwan's embassies may travel to Taiwan under the initiative.

C. Eligibility:

- a. Outstanding youth (18-30 years old) from Taiwan's diplomatic allies.
- b. Priority will be given to those who have never visited Taiwan or traveled abroad.
- c. Applicants are required to be proficient in English and have good communication skills.

D. Quota: Each diplomatic ally may recommend one to two candidates in 2025.

E. Program duration: A minimum duration of two weeks and a maximum of three months during the September to December period.

F. Selection process:

Applicants are to submit proposals to Taiwan's embassies in their home countries. The embassies will be responsible for recruitment, proposal review, and interviews. Selected candidates and their proposals will be presented to the Ministry of Foreign Affairs and Ministry of Education for final approval.

G. Application requirements:

- a. Applications are to be submitted individually.
- b. Each applicant may participate only once per year and submit only one proposal (refer to Attachment 1 for a list of suggested host organizations in Taiwan).

H. Themes: In 2025, applications are to focus on one of the following four themes:

- a. Sustainable tourism
- b. Smart agriculture
- c. Sports diplomacy
- d. Cultural diplomacy

I. Proposal content:

- a. Personal introduction (including academic background, work experience, interests, etc.)
- b. Project concept (motivation and objectives)
- c. Personal application or via a host organization or exchange unit
- d. Expected training or exchange activities
- e. Program duration (two weeks to three months)
- f. Planning, progress tracking, and project execution details
- g. Budget

J. Application method and deadline: Applicants must adhere to guidelines and deadlines announced by Taiwan's embassies.

K. Additional information:

- a. Overseas missions are to process visa applications in accordance with regulations.

- b. Overseas missions are to include in the program announcement the notice that participants from diplomatic allies who fail to follow the designated program and do not make corrections after having been instructed to do so, or who violate relevant regulations or run afoul of Taiwan law, may have their participation in the program terminated, be required to return home, and be liable to repay any subsidies received.

A. Personal information	
Name	Juan Pérez
Nationality	Paraguay
Date of birth	March 3, 2001
Education	Bachelor's degree in agricultural science
Institution	National University of Asunción
Language proficiency	Spanish (native), English (fluent), Chinese (basic)
B. Proposal	
Topic: Smart agriculture	
Motivation and vision: To meet the growing challenges of climate change and food security, the development of smart agriculture has become a trend in modern farming. My hometown relies heavily on traditional agriculture, but faces climate instability, resource wastage, and low production efficiency. I aspire to study smart agricultural technologies in Taiwan and apply them in my home country to improve productivity and sustainability.	
C. Target institutions and exchange activities	
Target institution: World Vegetable Center	
<ul style="list-style-type: none">- Learn smart agricultural technologies, including IoT applications, drone monitoring, and precision fertilization- Participate in short-term internships at Taiwanese smart agriculture enterprises to understand data-driven agricultural management- Visit smart farms across Taiwan to explore various agricultural models and strategies- Attend agricultural forums and seminars to engage experts and discuss the future of smart agriculture	

D. Expected outcomes

- Gain hands-on experience in the practical application of smart agriculture technologies
- Prepare a research report analyzing how Taiwan's smart agricultural techniques can be applied in Paraguay
- Establish connections with Taiwanese agricultural technology companies for possible future collaboration
- Organize post-program sharing sessions in Paraguay to share knowledge acquired with local farmers and government agencies

E. Expected timeline & plan

Duration: one month

Week 1	Orientation, acclimatization, visits to academic and research institutions
Week 2	Training and internships in smart agriculture technologies
Week 3	Participating in forums and networking events
Week 4	Documenting experiences, writing reports, and preparing to share what has been learned upon returning home

F. Budget

Item	Estimated cost (NTD)	Note
Airfare	100,000 - 120,000	
Accommodation & meals	@ 3,500/day × 30 days = 105,000	Lodging and food
Local transportation	@ 5,000/month	Public transport and travel expenses within Taiwan
Study & internship materials	10,000-15,000	Printing, study and experiment materials, etc.

Miscellaneous (event fees, etc.)	10,000-15,000	
Total	Approx. 260,000	

G. Conclusion

Through this program, I aim to acquire an understanding of smart agriculture and advanced techniques in Taiwan. The insights I gain will help me improve agricultural practices in my home country, increasing farmers' productivity and incomes. This exchange will also strengthen the cooperative relationship between Taiwan and Paraguay, and foster technology transfer and international friendship.
